Industrial Training Logbook

Year: 2025

Declaration

Before submitting this document for assessment, please complete the following declaration:

This is to certify that the contents of the Industrial Training Logbook are a true and accurate reflection of the work done by the student in the training company.

Student's name: Sohyla Said Mohamed Mohamed

Student's signature: Sohyla Said

Supervisor's name: Nourhan Tarek

Company's name: National Bank of Egypt

Student's Details
Name: Sohyla Said Mohamed Mohamed
I/C No.: 30306101303787 **Matric No.: 120210061**
Mobile Tel. No.: 01157214400
Email: sohyla.abdelwahed@ejust.edu.eg
Major: Computer Engineering
Placement Details
Name of Company: National Bank of Egypt
Company Address: 24 Sherif Basha Street, Cairo Governorate. National Bank of Egypt, Main Branch
Industrial Supervisor: Nourhan Tarek
Training Period: 3/8 – 28/8 (4 weeks) **Schedule: 5 days/week, 8 hours/day (160 total hours)**
Allowance: 1500 Indicate the amount of allowance paid per month.

Student's Logbook	
Date: 03.08.2025	Day: Sunday

Activities of the Day

Attended the full-day physical opening ceremony of the **"More Than an internship"** program at the **National Bank of Egypt (NBE) Headquarters**. The event featured executive welcome sessions, a comprehensive overview of the internship program structure, and formal group assignments to various departments, with placement in **Infrastructure and Information Technology – Digital Archiving**.

The agenda included detailed discussions on NBE's strategic priorities, particularly **Financial Inclusion** and **Sustainability**, as well as an introduction to internship logistics, including access to the **NBE Learning Management System (LMS)** and mobile applications. Participants also took part in a guided facility tour and networking sessions with mentors and professionals. Informal discussions provided valuable insights into career paths within **IT and the banking sector**.

Achievement of the Day: Take one or more from below

Functional Skills	**Soft Skills**
○ Problem-solving Skills	✓ Interpersonal Skills
○ Quantitative & Analytical Skills	○ Critical Thinking Skills
○ Computer Skills	○ Teamwork Skills
○ Decision-making Ability	○ Leadership Skills
○ Skills in Organizing/Analyzing Data	✓ Communication Skills

Student's Logbook	
Date: 04.08.2025	Day: Monday

Activities of the Day

Participated in a full day of **virtual training sessions**. The sessions were structured to provide a comprehensive understanding of the internship journey, NBE's technological ecosystem, sustainability strategy, and core retail banking products.

The **10:00 AM – 11:00 AM session** provided an overview of the internship program roadmap and introduced the digital tools used throughout the program, with a detailed walkthrough of the **NBE Learning Management System (LMS)** and other internship-related technology applications, including guidance on navigation and usage.

During the **12:00 PM – 02:00 PM session**, participants were introduced to **Sustainability and Sustainable Finance** concepts. The session clarified key distinctions between **sustainable development, Corporate Social Responsibility (CSR), and ESG (Environmental, Social, and Governance)** frameworks. It also highlighted the strategic importance of ESG integration for financial institutions, including benefits such as **risk mitigation, enhanced market access, long-term value creation, and regulatory alignment**.

The **02:30 PM – 04:30 PM session** focused on **Retail Products Awareness**, offering a detailed overview of NBE's retail banking services, including various **account types, personal and corporate loans, and customer-focused financial solutions**, emphasizing their role in financial inclusion and customer engagement.

In addition to attending the sessions, completed a **digital learning activity** by recording and submitting a **3-minute video** via the **NBE LMS**, outlining personal expectations from the internship program, with a focus on developing **technical and practical IT skills in Digital Archiving** within the Infrastructure and Information Technology domain.

Achievement of the Day: Take one or more from below

Functional Skills	**Soft Skills**
○ Problem-solving Skills	✓ Interpersonal Skills
○ Quantitative & Analytical Skills	✓ Critical Thinking Skills
✓ Computer Skills	○ Teamwork Skills
○ Decision-making Ability	○ Leadership Skills
○ Skills in Organizing/Analyzing Data	✓ Communication Skills

Student's Logbook	
Date: 05.08.2025	Day: Tuesday

Activities of the Day

Participated in a full-day **on-site technical training session** from **08:00 AM to 04:00 PM** at the **National Bank of Egypt (NBE)**. The day began with dividing interns into working groups to facilitate collaboration and professional interaction, followed by orientation activities to help team members get acquainted. Interns were formally assigned to their respective departments, with placement in the

Infrastructure and Information Technology – Digital Archiving Department, under the supervision of an assigned **group leader**.
The training included observation and hands-on exposure to the **initial stages of the digital archiving workflow**. This covered document preparation and organization, **QR code generation** using **barcode and QR code generation tools**, and proper document arrangement to ensure accuracy and traceability.

Participants were introduced to key enterprise systems used in the archiving process, including **IBM Business Automation Workflow (BAW)** for process automation and **IBM DataCap** for intelligent document capture and **QR code recognition**.
In addition to the technical components, discussions emphasized the role of **Digital Archiving in supporting Financial Inclusion**, particularly in managing and processing inclusive documentation such as **tax certificates and official records for underserved and unbanked clients**. These practices were highlighted as essential for ensuring accessibility, compliance, and efficient service delivery across diverse customer segments.

The session also addressed **early operational challenges**, notably the reliance on **manual paper handling**, and explored the impact of such challenges on efficiency, accuracy, and scalability, providing valuable insight into areas for future digital transformation and process optimization.

Achievement of the Day: Take one or more from below

Functional Skills	**Soft Skills**
○ Problem-solving Skills	✓ Interpersonal Skills
○ Quantitative & Analytical Skills	✓ Critical Thinking Skills
✓ Computer Skills	✓ Teamwork Skills
○ Decision-making Ability	○ Leadership Skills
✓ Skills in Organizing/Analyzing Data	✓ Communication Skills

Student's Logbook	
Date: 06.08.2025	Day: Wednesday

Activities of the Day

Continued **on-site training** from **08:00 AM to 04:00 PM** within the **Digital Archiving Department**, with a focused emphasis on **document scanning and uploading processes** using **AEM (Adobe Experience Manager)** and **ACM systems**. Observed and analyzed real-time examples of **document validation, indexing, and system-based classification**, gaining practical exposure to how archived documents are prepared for retrieval and compliance purposes.

The session included analytical discussions linking **Digital Archiving practices to Sustainability**, particularly by highlighting inefficiencies associated with **paper-intensive workflows** and their environmental and operational impact. Participated in brainstorming sessions to propose **initial digital improvement ideas**, such as enhancing accuracy and reducing errors during the **checker validation stage**, intending to improve overall process efficiency and reliability.

Achievement of the Day: Take one or more from below

Functional Skills	**Soft Skills**
○ Problem-solving Skills	○ Interpersonal Skills
✓ Quantitative & Analytical Skills	✓ Critical Thinking Skills
○ Computer Skills	✓ Teamwork Skills
○ Decision-making Ability	○ Leadership Skills
✓ Skills in Organizing/Analyzing Data	✓ Communication Skills

Student's Logbook	
Date: 07.08.2025	Day: Thursday

Activities of the Day

Participated in the **Week One Intern Competition** from **05:00 PM to 06:00 PM** via the **NBE Intern platform**, successfully answering assessment questions focused on **Financial Inclusion** and **Sustainability**, reinforcing key concepts introduced during training sessions, and enhancing conceptual understanding of NBE's strategic priorities.

Additionally, completed a mandatory **digital learning activity** by accessing **Almentor** through the **NBE Learning Management System (LMS)** and successfully finishing the **"First-Time Employee Training Course."** The course covered essential topics, including **banking ethics, professional conduct, workplace protocols, compliance standards, and organizational culture**, providing a strong foundation for professional behavior and effective integration into the banking work environment.

Achievement of the Day: Take one or more from below

Functional Skills	**Soft Skills**
✓ Problem-solving Skills	○ Interpersonal Skills
○ Quantitative & Analytical Skills	✓ Critical Thinking Skills
○ Computer Skills	○ Teamwork Skills
○ Decision-making Ability	○ Leadership Skills
○ Skills in Organizing/Analyzing Data	✓ Communication Skills

Student's Logbook	
Date: 10.08.2025	Day: Sunday

Activities of the Day

Participated in a full-day **on-site training** from **08:00 AM to 04:00 PM** in the **Digital Archiving Department**, with a focus on **Digital Transformation initiatives** within the banking sector. Gained hands-on exposure to **IBM Business Automation Workflow (BAW)** and its **integration for workflow automation**, observing how repetitive tasks in document processing are streamlined to improve efficiency.

Additionally, the potential of **artificial intelligence (AI) in enhancing QR code recognition** through **IBM DataCap** highlights opportunities for reducing manual errors and increasing processing speed. Continued detailed observation of archiving processes, identifying **time-intensive manual segmentation steps,** and recognizing areas where digital solutions could significantly improve accuracy and operational efficiency.

This session reinforced the importance of **digital transformation in banking operations** and provided practical insight into how technology can optimize document management workflows while supporting organizational sustainability goals.

Achievement of the Day: Take one or more from below

Functional Skills	**Soft Skills**
✓ Problem-solving Skills	○ Interpersonal Skills
○ Quantitative & Analytical Skills	✓ Critical Thinking Skills
✓ Computer Skills	✓ Teamwork Skills
○ Decision-making Ability	○ Leadership Skills
○ Skills in Organizing/Analyzing Data	✓ Communication Skills

Student's Logbook	
Date: 11.08.2025	Day: Monday

Activities of the Day

Participated in **full-day on-site training** from **08:00 AM to 04:00 PM** within the **Digital Archiving Department**, focusing on **end-to-end archiving cycles** and workflow optimization. Conducted a thorough review of **document indexing processes**, observing operational challenges such as **manual QR coding, which is prone to errors and time intensive**.

Engaged in **collaborative brainstorming sessions** with peers and supervisors to propose **preliminary solutions**, emphasizing the integration of **artificial intelligence (AI) tools** to enhance QR recognition, automate repetitive tasks, and reduce errors. The session highlighted the practical application of **digital transformation strategies** in improving efficiency, accuracy, and scalability within archiving operations.

This training reinforced the importance of combining **technical knowledge, analytical skills, and innovation** to optimize core banking IT processes while supporting organizational goals for efficiency and sustainability.

Achievement of the Day: Take one or more from below

Functional Skills	**Soft Skills**
✓ Problem-solving Skills	○ Interpersonal Skills
✓ Quantitative & Analytical Skills	✓ Critical Thinking Skills
○ Computer Skills	✓ Teamwork Skills
○ Decision-making Ability	○ Leadership Skills
○ Skills in Organizing/Analyzing Data	✓ Communication Skills

Student's Logbook	
Date: 12.08.2025	Day: Tuesday

Activities of the Day

Participated in a **full-day on-site training** from **08:00 AM to 04:00 PM** in the **Digital Archiving Department**, with a focus on **system interactions and digital workflow management**. Gained practical exposure to enterprise systems, including **Adobe Experience Manager (AEM)** for digital experience management and **Adobe Content Manager (ACM)** for content organization and archiving, observing how these platforms support streamlined document processing and retrieval.

Engaged in discussions on **fintech synergies**, exploring how emerging technologies and digital banking solutions can complement traditional archiving workflows. Observed **real-time operational challenges**, including inefficiencies in document handling and manual processing, which highlighted areas for potential **automation and digital transformation improvements**.

This session reinforced understanding of how **technology integration, process optimization, and innovation** contribute to enhancing operational efficiency and supporting organizational goals in banking IT.

Achievement of the Day: Take one or more from below

Functional Skills	**Soft Skills**
✓ Problem-solving Skills	✓ Interpersonal Skills
✓ Quantitative & Analytical Skills	○ Critical Thinking Skills
○ Computer Skills	✓ Teamwork Skills
✓ Decision-making Ability	○ Leadership Skills
○ Skills in Organizing/Analyzing Data	✓ Communication Skills

Student's Logbook	
Date: 13.08.2025	Day: Wednesday

Activities of the Day

Participated in **full-day on-site training** from **08:00 AM to 04:00 PM** within the **Digital Archiving Department**, engaging in **simulated archiving scenarios** to better understand workflow operations and document processing challenges. During the session, observed limitations in **manual QR code generation and segmentation**, which can lead to errors and inefficiencies in the archiving process.

Collaborated with team members to **brainstorm AI-based solutions**, exploring the potential application of **Optical Character Recognition (OCR) and Natural Language Processing (NLP) models** to automate segmentation, improve accuracy, and reduce manual workload.

This hands-on experience provided insight into how **emerging AI technologies** can be integrated into banking IT operations to enhance **digital transformation, operational efficiency, and scalability** in document management.

Achievement of the Day: Take one or more from below

Functional Skills	**Soft Skills**
✓ Problem-solving Skills	○ Interpersonal Skills
✓ Quantitative & Analytical Skills	○ Critical Thinking Skills
○ Computer Skills	✓ Teamwork Skills
✓ Decision-making Ability	✓ Leadership Skills
○ Skills in Organizing/Analyzing Data	✓ Communication Skills

Student's Logbook

Date: 14.08.2025 Day: Thursday

Activities of the Day

Participated in **virtual training sessions** from home via **Webex** as part of the program.
The **10:00 AM – 11:00 AM session** focused on **Artificial Intelligence (AI) at NBE**, covering fundamental definitions, practical use cases such as **proactive healthcare solutions**, operational challenges including **data privacy and security**, and banking applications such as **cash flow forecasting** and **fraud detection**, highlighting the strategic role of AI in financial services.

The **11:30 AM – 02:30 PM session** provided insights into **Digital Services and Fintech innovations**, including NBE's recent technological initiatives aimed at improving customer experience, streamlining operations, and supporting financial inclusion.

From **05:00 PM – 06:00 PM**, participated in the **Week Two Intern Competition** on the NBE Intern platform, successfully answering assessment questions, reinforcing concepts from the training sessions.
Completed additional **digital learning activities** via **Almentor through the NBE Learning Management System (LMS)**, including:

- Engaging in an **interactive cybersecurity simulation game** to enhance awareness of digital threats and safe banking practices.
- Completing the **"Work Ethics & Mastering Effective Communication Skills"** courses, focusing on professional conduct, effective workplace communication, and collaborative skills essential for success in the banking and IT environment.

These activities collectively strengthened both **technical knowledge and soft skills**, preparing participants for practical applications in IT, digital banking, and professional workflows.

Achievement of the Day: Take one or more from below

Functional Skills	Soft Skills
✓ Problem-solving Skills	○ Interpersonal Skills
○ Quantitative & Analytical Skills	✓ Critical Thinking Skills
✓ Computer Skills	○ Teamwork Skills
○ Decision-making Ability	○ Leadership Skills
○ Skills in Organizing/Analyzing Data	✓ Communication Skills

Student's Logbook	
Date: 17.08.2025	Day: Sunday

Activities of the Day

Participated in **full-day on-site training** from **08:00 AM to 04:00 PM** within the **Digital Archiving Department**, with a focus on the **alignment of archiving processes with NBE Products and Services**. Reviewed how digital archiving supports key banking operations, including **account opening forms, contracts, and other customer documentation**, ensuring compliance, accessibility, and efficient retrieval.

Continued in-depth **problem analysis and solution development** for the ongoing departmental project. Emphasized the potential application of **advanced AI models**, such as **LayoutLMv3**, for automated **document parsing, segmentation, and data extraction**, aiming to reduce manual effort, improve accuracy, and optimize the archiving workflow.

This session reinforced the importance of **linking technical archiving solutions with business operations**, highlighting how **AI-driven digital transformation** can enhance efficiency, accuracy, and service delivery in banking IT processes.

Achievement of the Day: Take one or more from below

Functional Skills	**Soft Skills**
○ Problem-solving Skills	○ Interpersonal Skills
○ Quantitative & Analytical Skills	○ Critical Thinking Skills
✓ Computer Skills	✓ Teamwork Skills
○ Decision-making Ability	○ Leadership Skills
✓ Skills in Organizing/Analyzing Data	✓ Communication Skills

Student's Logbook	
Date: 18.08.2025	Day: Monday

Activities of the Day

Participated in **full-day on-site training** from **08:00 AM to 04:00 PM** in the **Digital Archiving Department**, with continued observation of **end-to-end archiving workflows**. Conducted systematic documentation of operational challenges, particularly **paper-heavy processes**, manual handling, and their impact on processing time, accuracy, and sustainability.

Contributed to the ongoing **project development**, working on key sections related to **document segmentation and automation**. Researched and evaluated candidate AI models, including **SwinDocSegmenter** and **Aryn Sycamore**, assessing their suitability for **layout-aware document segmentation** and replacement of manual, rule-based approaches. Discussions focused on how these models could improve scalability, reduce human error, and support NBE's broader **digital transformation and sustainability objectives**.

This session strengthened practical understanding of **workflow analysis, AI model selection, and technical documentation**, reinforcing the role of advanced AI solutions in modern banking archiving systems.

Achievement of the Day: Take one or more from below

Functional Skills	**Soft Skills**
○ Problem-solving Skills	○ Interpersonal Skills
✓ Quantitative & Analytical Skills	✓ Critical Thinking Skills
✓ Computer Skills	✓ Teamwork Skills
○ Decision-making Ability	○ Leadership Skills
○ Skills in Organizing/Analyzing Data	✓ Communication Skills

Student's Logbook	
Date: 19.08.2025	Day: Tuesday

Activities of the Day

Participated in **full-day on-site training** from **08:00 AM to 04:00 PM** within the **Digital Archiving Department**, focusing on the integration of **electronic signature (e-signature) concepts** into the ongoing digital archiving project.

Explored **legal and regulatory compliance requirements**, with specific reference to the **Egyptian Electronic Signature Law No. 15 of 2004**, emphasizing validity, authentication, and non-repudiation of digitally signed documents. Discussions highlighted how compliance frameworks influence system design and operational workflows in the banking sector.

Additionally, examined potential **workflow enhancements** enabled by e-signature adoption, including **mobile application–initiated signing processes**, **biometric identity verification**, and secure digital authentication mechanisms. These enhancements were evaluated in terms of their ability to reduce paper dependency, accelerate document processing cycles, and improve customer experience while maintaining security and regulatory standards.

This session reinforced the importance of aligning **technological innovation with legal compliance**, demonstrating how **e-signature integration** can support digital transformation, operational efficiency, and sustainability objectives within banking archiving systems.

Achievement of the Day: Take one or more from below

Functional Skills	**Soft Skills**
○ Problem-solving Skills	✓ Interpersonal Skills
○ Quantitative & Analytical Skills	○ Critical Thinking Skills
✓ Computer Skills	✓ Teamwork Skills
✓ Decision-making Ability	○ Leadership Skills
○ Skills in Organizing/Analyzing Data	✓ Communication Skills

Student's Logbook	
Date: 20.08.2025	Day: Wednesday

Activities of the Day

Participated in **full-day on-site training** from **08:00 AM to 04:00 PM** in the **Digital Archiving Department**, dedicated to **finalizing project observations and deliverables**. Conducted a comprehensive review of end-to-end archiving workflows, consolidating key findings related to **manual processing, paper dependency, operational inefficiencies, and scalability challenges**.

Successfully **submitted and presented the group project titled "Digital Archiving"** to the **Head of the Infrastructure Department at the National Bank of Egypt (NBE)**. The presentation outlined a proposed integrated digital solution leveraging **AI-based document segmentation** using **OCR and NLP models** to automate classification, reduce human error, and accelerate processing cycles. It also incorporated **electronic signature integration** to streamline approvals, ensure legal compliance, and significantly reduce paper usage.

The proposed solution emphasized **operational efficiency, cost reduction, and sustainability**, aligning with NBE's digital transformation objectives. This activity strengthened competencies in **technical presentation, stakeholder communication, solution articulation, and professional engagement with senior leadership** within a real-world banking IT environment.

○ Skills in Organizing/Analyzing Data	✓ Communication Skills

Student's Logbook

Date: 21.08.2025 Day: Thursday

Activities of the Day

Participated in **virtual training sessions** as part of the program.
The **10:00 AM – 01:00 PM session** focused on **Small and Medium Enterprises (SMEs) and Non-Financial Services**, highlighting NBE's role in supporting SME growth through tailored banking solutions, advisory services, and digital enablement. The session emphasized how non-financial services complement traditional banking products by enhancing business sustainability, operational efficiency, and financial literacy for entrepreneurs.

The **01:30 PM – 03:30 PM session** addressed **Financial Inclusion and NBE's national role**, discussing the bank's contributions to expand access to financial services across underserved communities, supporting national economic development initiatives, and aligning with Egypt's broader financial inclusion strategy.

From **05:00 PM – 06:00 PM**, successfully participated in the **Week Three Intern Competition** on the **NBE Intern platform**, answering assessment questions related to SME banking, non-financial services, and financial inclusion.

Additionally, completed a **digital learning activity** by recording and submitting a **3-minute feedback video** via **Almentor through the NBE Learning Management System (LMS)**, reflecting on the internship program experience and highlighting key takeaways, including the **valuable exposure to IT operations, digital archiving systems, and real-world banking technology environments**.

This day strengthened understanding of the **intersection between banking services, national development goals, and technology**, while reinforcing communication and reflective skills through structured feedback.

Achievement of the Day: Take one or more from below

○ Skills in Organizing/Analyzing Data	✓ Communication Skills

Student's Logbook	
Date: 24.08.2025	Day: Sunday

Activities of the Day

Participated in a **full-day on-site training** from **08:00 AM to 04:00 PM** at an **NBE branch**, including a guided visit to the **Security Operations Center (SOC)**. The session provided an overview of **cybersecurity operations**, focusing on how real-time **threat monitoring, incident detection, and response mechanisms** are implemented to protect banking systems and customer data.

Discussions covered key aspects of **cybersecurity governance and compliance**, including adherence to regulatory standards, internal security policies, and risk management frameworks within the banking environment. Observed how the SOC integrates **security tools, monitoring dashboards, and alerting systems** to ensure operational resilience and continuous protection against cyber threats.

This training enhanced understanding of the **critical role of cybersecurity in financial institutions**, highlighting the importance of proactive monitoring, compliance, and secure IT infrastructure in maintaining trust, stability, and service continuity.

Date: 25.08.2025	Day: Monday

Activities of the Day

Participated in a **full-day on-site training** from **08:00 AM to 04:00 PM** focused on **database management concepts** within the context of **Digital Archiving systems**. The session covered fundamental aspects of **data storage, organization, and retrieval**, emphasizing how structured databases support efficient document archiving, indexing, and long-term data preservation.

Gained exposure to **database querying techniques**, including how archived records are accessed, filtered, and validated to meet operational and compliance requirements. Discussions highlighted the importance of **data integrity, consistency, and security** in banking environments, as well as the role of optimized database design in improving system performance and scalability.

This training strengthened understanding of how **database management underpins archiving workflows**, reinforcing the connection between backend data systems and front-end banking operations, while supporting digital transformation and regulatory compliance objectives.

Student's Logbook	
Date: 26.08.2025	Day: Tuesday

Activities of the Day

Participated in **full-day on-site training** from **08:00 AM to 04:00 PM** focused on **software architecture principles** within the context of **digital transformation initiatives** at the National Bank of Egypt (NBE). The session covered foundational and applied aspects of **system design**, including layered architectures, service-oriented and modular designs, and how these approaches support scalability, reliability, and maintainability in enterprise banking systems.

Discussions emphasized the role of **well-designed software architectures** in enabling digital archiving, automation, and AI integration, highlighting how architectural decisions impact performance, security, interoperability, and future system extensibility. Real-world examples from NBE's IT infrastructure were reviewed to illustrate how architecture supports large-scale digital transformation programs in the banking sector.

This training enhanced understanding of **enterprise system design, architectural thinking, and technology alignment with business objectives**, reinforcing the importance of robust software architecture in delivering secure, efficient, and sustainable digital banking solutions.

Date: 27.08.2025	Day: Wednesday

Activities of the Day

Participated in **full-day on-site training** from **08:00 AM to 04:00 PM**, focused on **synthesizing key learnings from previous branch visits** and relating them to the **overall IT infrastructure** at the National Bank of Egypt (NBE). The session emphasized how branch-level systems integrate with centralized IT operations, including **networking, cybersecurity, databases, digital archiving platforms, and core banking systems**.

Discussions highlighted the interdependencies between **infrastructure components**, demonstrating how hardware, software, and security layers work together to ensure system reliability, data integrity, and uninterrupted banking services. Real-world observations from branch environments were mapped to enterprise-level IT architecture, providing a holistic understanding of how **distributed banking operations are supported by centralized infrastructure and governance frameworks**.

This training strengthened the ability to **connect operational observations with strategic IT design**, reinforcing an end-to-end understanding of banking IT infrastructure and its role in supporting digital transformation, security, and service continuity.

Student's Logbook	
Date: 28.08.2025	Day: Thursday

Activities of the Day

Completed the final phase of **on-site training** from **08:00 AM to 02:00 PM**, focusing on **consolidating reflections from various branch departments**. This session reviewed key operational, technical, and administrative functions observed throughout the internship, highlighting how different departments collaborate to support **banking operations, IT infrastructure, cybersecurity, digital archiving, and customer services**. The discussion emphasized lessons learned, best practices, and the integration of branch-level operations within NBE's broader organizational framework.

Subsequently, I attended the **virtual closing ceremony** from **02:00 PM to 03:00 PM** via the **NBE Intern platform**. The session marked the formal conclusion of the **"More Than an internship"** program and included completion of the **mandatory feedback and evaluation survey**, a prerequisite for **certificate issuance**. The ceremony provided closing remarks on program outcomes, professional development, and future career pathways within the banking and IT sectors.

This day served as a comprehensive wrap-up of the internship experience, reinforcing technical knowledge, professional growth, and a holistic understanding of **banking operations and IT systems** at the National Bank of Egypt.
